

## KEYSTONE ANKENY

**Keystone Church of Ankeny** was looking for its first permanent facility after several years of using temporary spaces for its worship services. JCorp worked with the client to develop a program that meets their needs within a former pharmacy building. The final building contains a 500-seat auditorium, office spaces, classrooms, offices, and a large foyer, repurposing a previously monotonous building into a dynamic home for the congregation in a very cost-effective manner.
